

AMERICANS for TAX REFORM

Grover G. Norquist
President

Every April 15th, working Americans struggle to pay their taxes to the IRS.

This November, taxpayers who vote will choose between two different visions of future April 15ths. A vote for Senator McCain is a vote to keep tax rates low and prevent Democrat tax hikes. A vote for either Hillary Clinton or Barack Obama means a tax hike of over \$2000 for the average family.
