## LEGISLATIVE ALERT:

### Vote “YES” to Tax Cuts!

### Support HB 2762

As early as today, you will be given the opportunity to pass legislation that will benefit all taxpayers in Kansas. HB 2762, a proposal to cut the corporate income tax rate may soon hit the floor for a vote.

Opponents of this bill may claim that only big business will reap the rewards of a lower tax rate. That is simply not the case.

We know that ultimately, only people pay taxes. Recent academic literature strongly suggests that capital doesn't pay the corporate income tax (it's so mobile, it can avoid it). Rather, the corporate income tax is actually “paid” by workers in the form of lower wages, and consumers in the form of higher prices. Cut this tax, and workers will both earn *and* spend more.

At a time in which state fiscal situation's are uncertain and the economy may be shifting slightly downward, a move to put more money back into private hands and into productive use is certain to spur economic growth.

Cutting the corporate income tax rate will boost Kansas's competitiveness and attract new businesses and new jobs into the state.

This legislation is a victory for Kansas taxpayers.

Make a move to stimulate Kansas's  
economy-  
support HB 2762!
