## HOUSE ENERGY BILL RAISES TAXES ON ENERGY & LIMITS PRODUCTION

### ATR WILL RATE VOTE AGAINST HR 6899

WASHINGTON, DC – The U.S. House “Comprehensive American Energy Security and Consumer Protection Act,” H.R. 6899, is fiscally irresponsible and does nothing to increase energy production.

ATR will rate a vote against H.R. 6899 in our annual “Hero of the Taxpayer” Congressional Scorecard.

- HR 6899 applies Renewable Portfolio Standards (RPS), which are a massive excise tax (28% surcharge) on rate paying consumers in states that cannot meet this standard.
- HR 6899 does not honor American Energy Freedom Day by not allowing the moratorium on OCS drilling to expire. American Energy Freedom Day WILL NEVER occur if this bill is passed.
- HR 6899 RAISES TAXES ON ENERGY PRODUCTION
- Sec 199 repeal will increase taxes on energy companies and cost 600k+ American jobs. If you consume or use energy, or own a 401k or IRA – this bill will cripple your wallet and do nothing to increase supply.
- No revenue sharing from the limited production allowed with the states. Yet forces them into a top-down leasing program with no incentives if they want to drill.

## VOTE “NO” ON H.R. 6899
