Dear Honorable John L. Campbell,

Thank you for signing the Taxpayer Protection Pledge sponsored by Americans for Tax Reform (ATR). ATR has learned of various proposals to increase taxes in Idaho, and we encourage you to join us in voicing our opposition to these proposals.

Since January of this year, some members of the Legislature and the Kempthorne administration have attempted to pass or move forward bills that would increase the tax burden in Idaho. Increasing the tax burden will negatively impact the livelihood and liberty of both residents of and visitors to your state.

Various lawmakers have proposed increasing taxes on sales, cigarettes, distilled spirits, beer, wine and other products and services to afford additional state spending. But spending in Idaho has ballooned over the last decade and longer, and taxpayers deserve to keep more of their hard-earned income.

I strongly encourage you to cooperate with other members of the Legislature to develop a plan to cut spending and alleviate some of the tax burden in your state, without raising taxes of any kind. Doing so stimulate your state's economy and invite greater business investment.

Thank you for your thoughtful consideration.

Sincerely,

Grover Norquist
